Company Overview

ADH Engineering & Construction Limited is an indigenous company providing Engineering, Procurement and Construction services, Facilities management and provision of Project Management Services in the Oil and Gas Industry in Nigeria.

The company brings together individuals with varying experiences from within the country and international work environment. Our industry and professional background provides us an extensive network in target operational areas and strong relationships with individuals/companies in the various services that we offer.

The Company provides high quality Integrated Services in Engineering, Procurement, Construction, Facility Management and Project Management Services based on the health and safety requirements in the oil and gas industry.

The founding Directors of ADH have proven combined track work records and life experiences of over 70 years in engineering, construction, procurement, facilities management, and provision of project personnel, in the Power, Oil and Gas projects. In addition, the company has very experienced industry personnel dedicated to projects as required.

Company Overview

A complement of this wealth of experience positions the company technically with a competitive edge over our competitors.

ADH goal is to grow and strengthen our capabilities in these sectors by continue attracting quality personnel in the industry in order to retain the trust of our stakeholders. Additionally, our local content policy exceeds the expectations of the project host communities where we operate.

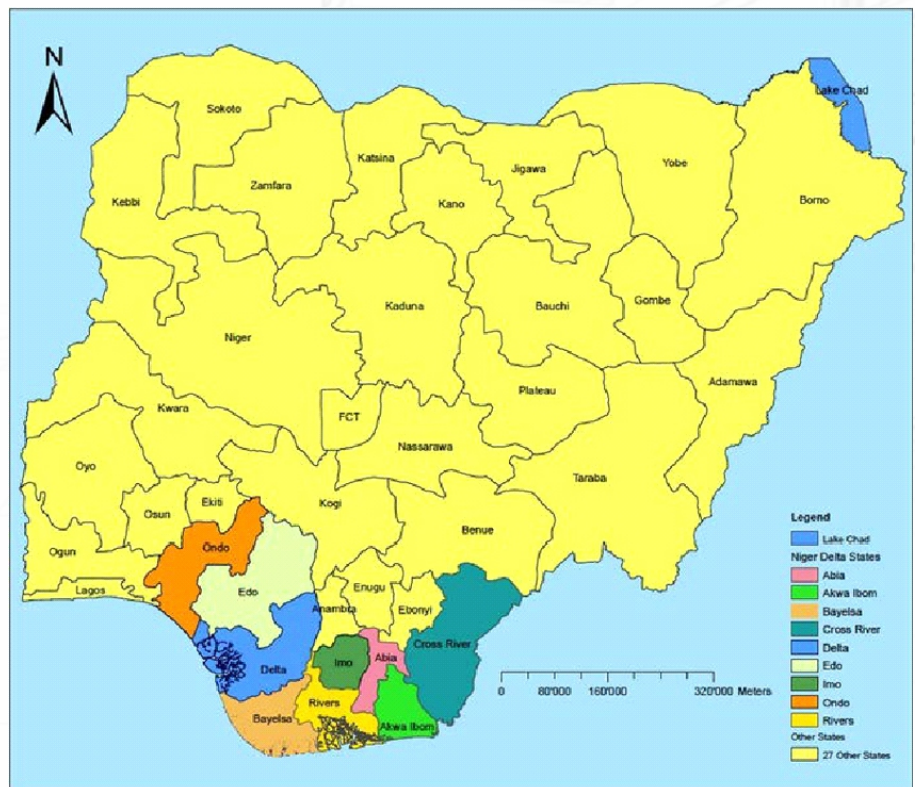

We believe in early community engagements with our hosts to ensure seamless transition to project execution. This provides the needed confidence of our technical partners in ensuring that they are able to work with us in deploying technology without hindrance from the local communities.

Incorporated 19th day of April, 2018

Provides Engineering, Procurement and Construction Services, for offshore and onshore Oil & Gas projects, Petrochemical, LNG, Refineries, Power and Government Agencies. Also provides Facility Management Services and Project management personnel.

Company Registration
